Chose your classes below by putting a check mark in the sections:

Reading and Math Lab, 1st through 7th grades:

Reading---A fun mix of auditory processing activities, decoding activities, reading aloud while exploring books, and hands-on activities.

Math---Group math games, hands-on activities and world experiences make math fun!

Eight children maximum. Cost: half day, Monday –Thursday,
\$450/month: 9-11:30

June through August, 2010

Cognitive enhancement for working memory, processing, and logic & reasoning skills: 1st through 12th grades.

A blend of highly effective therapies to increase cognitive efficiency, memory skills and learning power. The enhancement activities are fun, research based and highly effective. Call to schedule preferred weekly time (s).

Cost: \$45 per hour.

Handwriting/small motor camp: M, W, F from 11 to 1 or 1-3 for 8 weeks. Interactive Metronome therapy has been shown to improve motor skills, coordination and focus. One hour of Interactive Metronome therapy and one hour full of handwriting activities and other fun, eye-hand coordination tasks. **Eight children maximum.**

\$65 a day (2 hours) or \$1450 for the eight weeks.

Individualized tutoring: Reading, phonics, school readiness, listening, writing and math. We have fun programs to rapidly increase skills in each area. Tutors have teaching background and are motivating and experienced.

Cost: \$42 for a one on one session.
